We are Different..

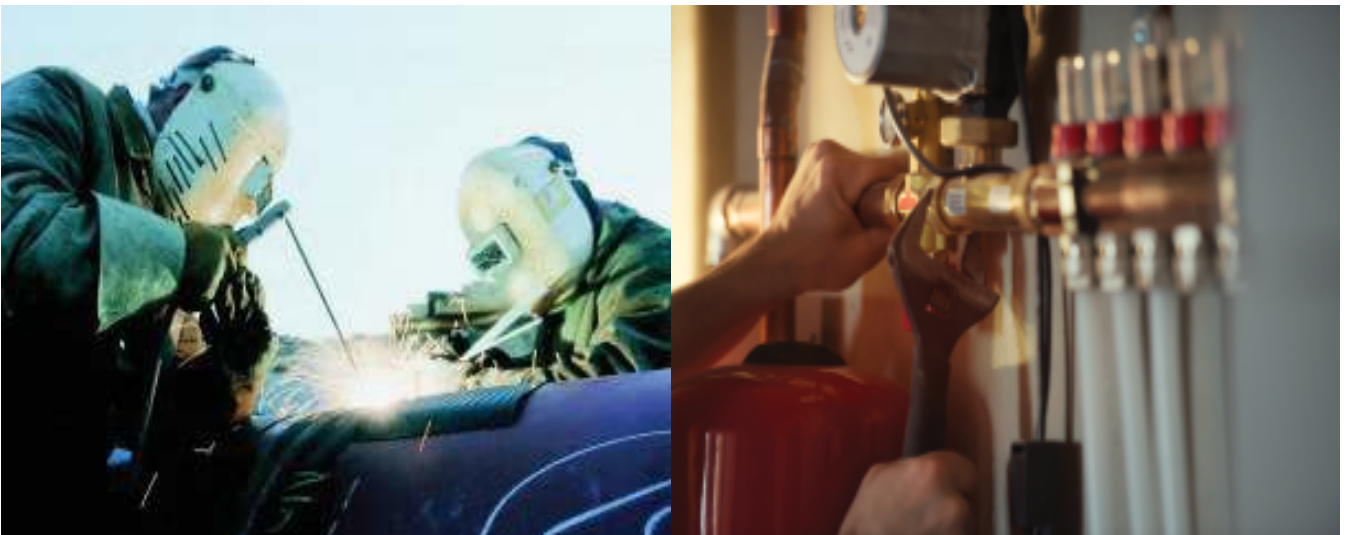

Find Out What make us special, and Work with us!

PT BRILIAN SUKSES MANDIRI (BSM) was established on September 15th 2010.

PT.BrilianSukesMandiriServices is a company that provides not only the planning and expertise necessary for project completion, but a company that is built on values that benefit our customers and our community.

Head Office in Jakarta with strategic presence in all around Indonesia. We offer cutting edge solutions to marine, oil and gas industries, including contractors, oil rigs, platform and jacket fabricators, FSPO, shipyards, pipe mills and infrastructure contractors.

In the process of executing our Goals BSM views that a company should start from scratch and properly growing and higher professionalism will emerge.

Our Vision - Mission and Value

VISION

PT. Brilian Sukses Mandiri is Committed to be a dependable, reliable Company to the offshore and onshore oil and gas industry for providing from ManPower Supply, Welding and Safety Equipment and HotTap Installation services. In PT. Brilian Sukses Mandiri vision, all such tasks are to be carried out in the most professional way, with great emphasis on and foremost observance of all aspects concerning reliability, safety and protection of health and environment.

MISSION

In order to bring the vision of PT. Brilian Sukses Mandiri into reality, we need to operate with the excellent skill crew starting from High level management up to Field crew. Therefore, we are committed to develop and maintain our services with all our clients and vendors, so we can meet to the highest industry standards meeting or exceeding all statutory regulations and laws. Such Mission we need to carry out are :

1. Sense of Belonging.

PT. Brilian Sukses Mandiri ownership participates in every aspect of the business. This crucial aspect enables us to be more responsive to its customer's needs and help eliminate problems caused by lack of direct accountability and communication.

2. Sense for Teamwork.

PT. Brilian Sukses Mandiri recognizes that our primary asset is People. We continuously strive to promote an atmosphere of mutual respect and open communication between our Clients, Vendors, and Employees. The collaborative approach has repeatedly enabled

PT. Brilian Sukses Mandiri to meet various challenges head on under the scrutiny of the most demanding safety and inspection requirements in the country.

3. Sense of Performance

PT. Brilian Sukses Mandiri employees possess the drive to succeed, enthusiastically accepting new challenges and relentlessly finding better solutions for our customers. They are hardworking, professional and committed to superior quality and excellence. Because of our employees, BSM has developed and maintained a reputation as a company that has, and will continue to, exceed our client's expectations and outperform the competition.

Internally:

- ☒ Help define performance standards
- ☒ Inspire employees to work more productively by providing focus and common goals
- ☒ Guide employee decision making
- ☒ Help establish a framework for ethical behavior

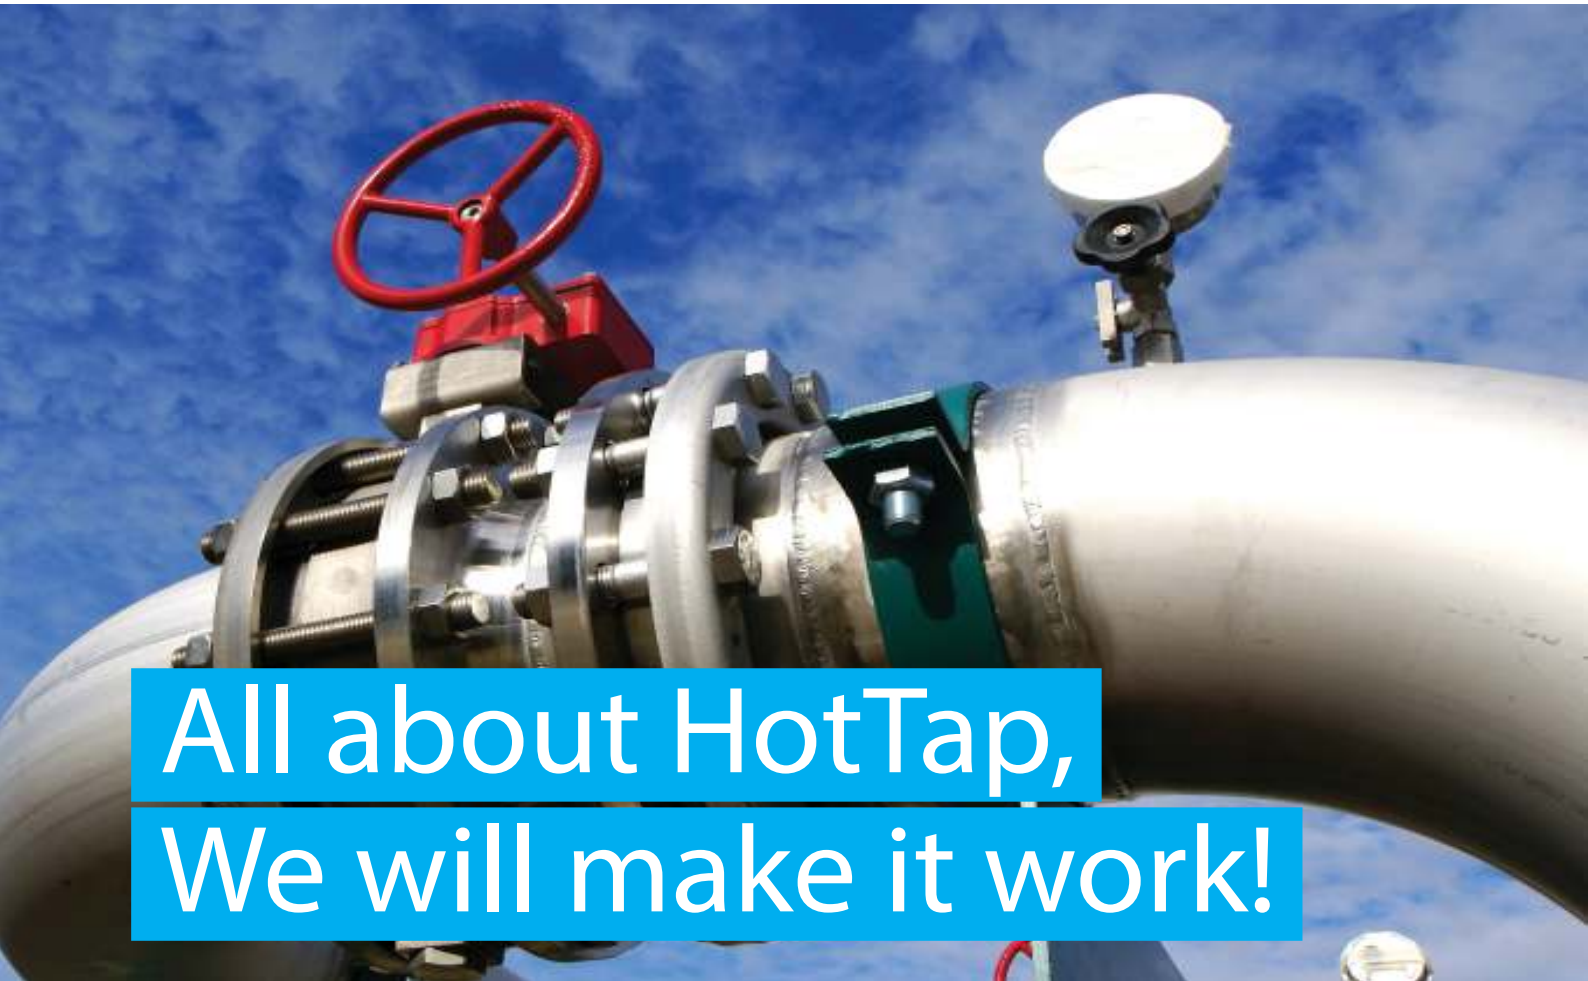

Externally:

- ☒ Enlist external support
- ☒ Create closer linkages and better communication with customers and alliance partners
- ☒ Serve as a public relations tool

VALUES

- o Integrity
- o Sustainability
- o Respect for people
- o Performance culture
- o Profitable growth
- o Financial disciplines

Performance Driven Reliability

All about HotTap, We will make it work!

Hot Tap Capabilities

PT. BRILIAN SUKSES MANDIRI is equipped to handle your all of your Hot Tap needs. We carry large and most diverse inventory of Hot Tapping equipment in Indonesia. We have a proven record of developing unique and custom Hot Tap solution for the most complicated scenarios.

- Hot Tap performed in size ranges from ½ inch through 40 inches.
- Hot Tap performed on system operating over 1000 PSI.
- Hot Tap performed on system operating to 700 Degrees F.

Hot Tapping Services

Whether you require a small-bore emergency application or a larger planned modification – PT. BRILIAN SUKSES MANDIRI Taping gets the job done and done right. PT. BRILIAN SUKSES MANDIRI has the expertise to evaluate and customize a solution that specifically meets your application and plant needs. We're able to perform hot taps into most mediums such as hydrocarbons, natural gas, water, waste water, steam, condensate, compressed air and heavy oils, and can be effectively deployed in a variety of industries,

Feel free to visit our website to find out more. www.brilian-sm.com

“ A Hot Tap is define as using a drilling machine to cut hole into an in- service, underpressure piping system. This is done without service interruption or product leakage.

All about ManPower, Crew that works for you!

Variety Range Of Crew

In Order to respond the demand of foreign companies and Indonesians as well, in Supplying qualified manpower resources to perform for offshore and onshore services in the Petroleum and Para petroleum industry.

We have the ability to source both locally and overseas the most qualified personnel to fill in your future projects.

Their abilities cover the fields of mechanical, piping, qualified welder, instrumentation or electrical.

Offshore and Onshore Projects

Determined for Teamwork, Quality, Commitment to Safety, Competitiveness.

PT. Brilian Sukses Mandiri has successfully owned highly experienced employee, a fully tested bussiness process and also an adequate Funding capability to enable PT. Brilian Sukses Mandiri to perform in a broader spectrum and to compete manpower resources oriented services throughout the world.

Feel free to visit our website to find out more. www.brilian-sm.com

Pipe laying Installation, Construction work of petrochemical industries and refinery, oil and gas, steam power plant, Fabrication work shop install, Pipeline offshore onshore and riser hook up.

All about Filtration

High Capacity Tank Cleaning System

Single Stage Filtration

Single Stage Filter Systems are a custom designed, powerful addition to your Mobile Tank Cleaning System.

They provide large capacity heavy duty pre-screening for tank cleaning jobs with extraordinary amounts of sludge, rust scale, and other contaminants to protect your equipment.

- Cost Efficient Pre-Filtering
- Easy Connectivity & Filter Change
- Large Holding Capacity
- Variety of Micron Filter Options

Multi Stage Filtration

Multi Stage Filter Systems are used to clean fuel storage tanks and recondition, stabilize and decontaminate

Diesel Fuel, Bio-Diesel. They offer multi-phase tank cleaning, water & sludge removal and transfer of fuels between tanks to guarantee Optimal Fuel Quality at All Time.

- High Capacity Fluid Processing
- Multiple Discharge and Sample Ports for Water Removal and Fuel Transfer
- Large Contaminant Holding Capacity
- Compact Industrial Design
- Tank Cleaning while Reconditioning, Stabilizing, Decontaminating & Drying Fuel

Applications

- Use in any applications where users store fuel for machines or engines.
- The unit are placed in series between the fuel pump and the fuel storage tank/ fuel station.
- Smaller units are available intended for remote daily tank or fuel trucks applications.

Coolmax +

Heavy Duty Extended Life Organic Coolant

Coolant Overview

Purpose of Coolant:

Removes heat from cylinder block and cylinder heads to maintain durability and long life

Prolong cooling system component life, radiator, water pump etc

Maintain cooling system temperature and cleanliness

Maintain temperature of lube oil so it does not degrade the lube quality

Some also help to cool transmission oil, hydraulic oil, and fuel system

Some also used to cool inlet air after it is compressed by turbocharger

In cool climate used to heat cabin and or fuel in winter

To protect all cooling system components from pitting, corrosion, cavitation etc

Heavy Duty Extended Life Organic Coolant

Longer Life than Conventional & hybrid coolant

Premix 50-50 and 65-35: Reduces errors in mixing and simple maintenance

Best efficient heat transfer to ensure proper cooling system

High temperature corrosion protection

Economic advantages

Boiling point 129 C

Organic Base Chemicals : stable

No Nitrite, Nitrate, and Silicates: free maintenance

Lower Cost than conventional & hybrid coolant

Coolmax +
40%-60% of all engine problems as a result of improper cooling system, according to the survey

Our Services

HotTap Installation

We provide quality, knowledge, experience and professionalism in All aspects of Line Stop and Hot Tapping. Cost Efficient.

Manpower Supply

In Order to respond the demand of foreign companies We supply Manpower for offshore and onshore services in the Petroleum and Para petroleum industry.

Service & Maintenance

Passionately innovate what is essential to human progress by providing sustainable solutions to our customers.

Filtration

We can help customers to improve engine performance by eliminating significant organic and inorganic contaminants and water contents (free and emulsified water).

Wellhead/Hydraulic/ System Cable

Providing Various Wellhead Control Panel , Hydraulic Power Unit, System Cables And Elco Boards.

Supply Oil & Gas Industries

Range from Air Compressors, Watercut Meters, Valves, pipe, & other equipment for your needs.

For more Information kindly visit our website www.brilian-sm.com and do not hesitate to work with us!

Our Product

CoolMax+

Extended Life Heavy Duty
Organic Coolant
SUPERIOR PERFORMANCE

Air Filters
Oil Filter
Fuel Filter
Hydraulic Filter

Fuel Water Separator & Coalescer

Safety Equipment

Range from Coverall Flame Retardant, Safety Glasses, Helmet, Safety shoes and others for your health safety & environment needs.

Hydraulic Components

- Hydraulic rod and cylinder
- Hydraulic pump cartridge
- Hoses
- Hydraulic Barrels & Pistons
- Pumps
- And Much More

Sealing Solution

- Crankshaft Seals
- Head Gaskets
- Metal Face Seals
- Oil Seals
- O-Ring Kits
- U-Cup Seals
- And Much More

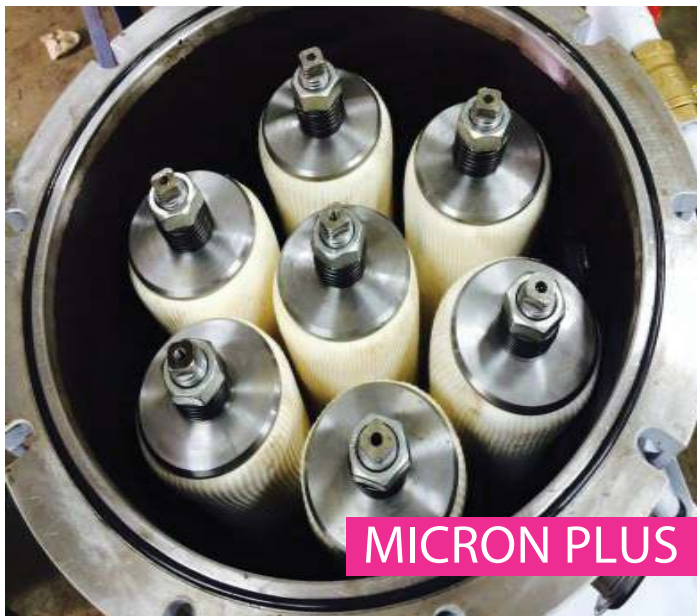

For more Information kindly visit our website www.brilian-sm.com and do not hesitate to work with us!

HotTaps performed on variety of piping and vessels materials including the following : Carbon Steel, Stainless Steel, Cast / Ductile Iron, Prestressed Concrete Cylinder Pipe, Reinforced Concrete Pipe,

Transite or Asbestos Cement, Exotic Alloys, PVC, Polyethylene, and others.

HOT TAPPING

MICRON PLUS

Micron High Capacity and Coalescer Fuel Filtration

- Better fuel handling maintenance by providing clean and water-free fuel to your storage tank and engine.
- Excellent for biofuel B5-B20 while biofuel is highly hygroscopic.
- Long element life thus low maintenance cost
- Longer life for fuel system related components: Injectors, Fuel Pumps.
- Maintain peak performance and overall engine life
- Longer filter life as it resists (unlike standard pleated paper media) choking from asphaltenes, a soft hydrocarbon inherent in most fossil fuels
- Longer life of engine OEM fuel filters

- Welding Engineers/Inspectors
- Welder 5G/6G/SMAW
- Welder 6GR/SMAW
- Welder Tig/GTAW
- Electricians
- Scaffolder / Rigger
- Sandblaster / Painter
- Pipe fitters for structural, process piping
- Spacers
- Helpers

ManPower Supply

Our Experience

Fabrication Hot Taps and Line Stops Accessories for Masuma – Radiant Hot Tapping, Chevron Duri.

Technical consultant and supply material for construction, Wire Mesh to PT.Raihan Kreasi Utama gemilang – POLRI.

Service and supply welding consumable to Petrohans Tritunggal – Punj Lloyd Indoensia / PHE ONWJ.

Supply Welding Consumable to PT PILAR MANDIRI – Mesitech Project.

Operator Services for Cold Cutting Engine – Radiant Masuma Hot Tapping, Chevron Duri.

Supply PSV for Pig Receiver, PT Bukaka Teknik Utama, Chevron Balikpapan.

Qualified welder for SMAW for Pipe 32", Masuma Muhale – Radiant Hot Tapping, Pertamina Prabumulih.

Modification and fabrication Piston, cylinder Block and Ring Pistons Gas Compressor Clark HRA8, Masuma Muhale, Chevron Duri.

Qualified engineers and foremen refractory service for Lime Plant, PT Better Teknik Indonesia, PT Freeport Indonesia.

Qualified engineers hot tapping and pipeline services, CV. M2 Masuma Muhale, PT Perusahaan gas Negara.

Design and fabricates RBP 2 7/8" and 3 1/2", Hydraulics Receiver and PUP Joint, Masuma Muhale, Chevron Duri.

Retrieval Lock O Ring Plug 12" ANSI 600 at Tanjung Jumalai Waste Water Pipeline, Chevron KLO.

Maintenance Piston Ring set and Cylinder: engine size 14 in x 25 in for engine clark hra-8 for PT. Masuma Muhale - Chevron Duri.

Fabrication Hot Taps and Line Stops Accessories for Masuma – Radiant Hot Tapping, PERTAMINA Prabumulih.

Supply more than 1000 Pieces of Coverall Flame Retardant for PT. Gunanusa Utama Fabricators.

Qualified engineers maintenance - upgrade Gas engine Compressor. PT. Masuma Muhale - Chevron Duri.

Micron plus Filter installation at Diesel Power Plan (PLTD)

PT. Sumberdaya Sewatama : Air Anyir , Alur2, Bali,Bali1,Bali2 ,Bali3, Gorontalo3, IP Bali, Jakarta, Lombok, Lombok1&2, Medan, Medan2, Padang, Pesanggrahan1, Pesanggrahan2, Bireun, Sanggau1, Sintang1,Ternate1, Waena1, Sanggau, Sintang, Sutami, Ternate, Ternate1, Tualang Cu, Waena1, Waena new, PT.Kertak Bumi Teknindo : Several sites, PT.
